Formulario de para el ingreso de formula para produccion.

The screenshot shows the 'Formula Produccion' window. At the top is a toolbar with icons for adding, saving, printing, and navigating. Below the toolbar is the 'Formula' section with fields for 'Codigo Formula' (14), 'Nombre Formula' (Pantalon), 'Unidad' (oz), 'Precio U' (125), and 'Estado Formula'. Below this is the 'Busqueda De Materia Prima' section with a 'Nombre' search field and a table of materials. The table has columns: 'cod_materiaPrima', 'Materia_Prima', 'Precio', and 'Cantidad'. The first row is selected, showing '1', 'Cintas', '3', and '50'. The second row shows '2', 'Botones', '2', and '10'. To the right of the table is the 'Control' section with a 'Cantidad' input field (0), and buttons for 'Agregar Materia Prima' (green plus icon) and 'Quitar Materia Prima' (red minus icon).

cod_materiaPrima	Materia_Prima	Precio	Cantidad
1	Cintas	3	50
2	Botones	2	10

Ingreso de datos para la formula

This is a close-up of the 'Formula' section of the window. It contains the following fields: 'Codigo Formula' (14), 'Nombre Formula' (Pantalon), 'Unidad' (oz), 'Precio U' (125), and 'Estado Formula'.

Ingreso de materia prima a la formula

The diagram illustrates the process of adding and removing materials from the formula. It shows the 'Busqueda De Materia Prima' table and the 'Control' section. Arrows point from text boxes to specific elements in the interface:

- Selecciona una fila para agregar.** Points to the first row of the 'Busqueda De Materia Prima' table.
- Cantidad de materia prima que se desea agregar.** Points to the 'Cantidad' input field in the 'Control' section.
- Agrega una fila de Materia prima.** Points to the 'Agregar Materia Prima' button (green plus icon).
- Quita una fila de materia prima.** Points to the 'Quitar Materia Prima' button (red minus icon).

Agregar una materia prima

The screenshot shows the 'Agregar Materia Prima' window. It includes a search bar, two tables for material selection, a quantity control field, and buttons to add or remove materials. Numbered callouts explain the steps:

1. Selecciona una fila para agregar. (Select a row to add.)
2. Cantidad de materia prima que se desea agregar. (Quantity of raw material to be added.)
3. Agregamos una fila de Materia prima. (We add a row of raw material.)
4. Se agregado una materia prima. (A raw material has been added.)

cod_materiaPrima	Materia_Prima	Precio	Cantidad
1	Cintas	3	50
2	Botones	2	10

cod_materiaprima	Materia_Prima	Precio	Cantidad
1	Cintas	6	2

Guardar formula y detalle formula

The screenshot shows the 'Formula Produccion' window. It includes a toolbar with a 'Guardar' (Save) button, a form for formula details, and the same material selection tables as the previous window. A callout points to the 'Guardar' button:

6. Guardar formula (Save formula)

cod_materiaPrima	Materia_Prima	Precio	Cantidad
1	Cintas	3	50
2	Botones	2	10

cod_materiaprima	Materia_Prima	Precio	Cantidad
1	Cintas	15	5
